

## Great For:

- Adults who want to increase strength, energy and stamina during workouts

# AMPED™ Nitro

Prime Your Body for Peak Performance.

## What is AMPED Nitro?

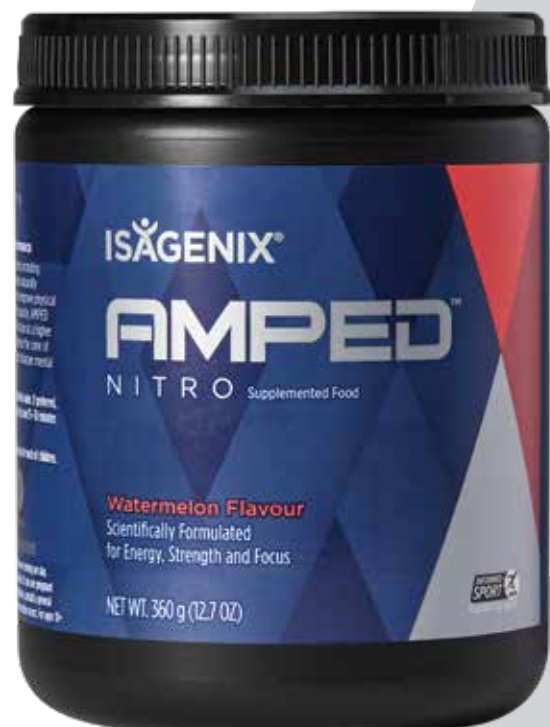

AMPED Nitro is designed to offer athletic support by preparing your body before a workout and helping to improve performance. This pre-workout drink is designed to improve strength and performance before exercise.

## Why do you need AMPED Nitro?

- **Feel the Difference**  
Nitrosigine® and caffeine help boost energy and focus for optimal training.
- **Stay Strong**  
Formula contains function-enhancing ingredients designed to be taken before a workout.
- **Work Harder for Better Results**  
Creatine, beta-alanine, taurine and betaine help maximise energy and hydration in your muscles.

## How does AMPED Nitro work?

Research-supported amounts of the right ingredients combine to activate you prior to a workout. The ingredients take effect quickly and can last up so several hours.

## What Makes AMPED Nitro Unique?

The scientifically supported combination of active ingredients in AMPED Nitro puts it a cut above the rest. Creatine supplies energy to muscle and prime muscles for improved post-workout recovery. Beta-alanine creates a buffer in muscles that decreases the buildup of lactic acid and helps reduce fatigue. Taurine helps decrease exercise-related muscle damage and oxidative stress.

The effectiveness of AMPED products depends on nutritional timing – when you take each product throughout your workout. There are three windows, pre-, mid- and post-workout, where these products are designed to help deliver results.
